[SO - IL](#)

SO-IL have been shortlisted in the architecture studio of the year category of Dezeen Awards 2021

Shortlisted for Dezeen Awards 2021 [architecture studio of the year](#), SO – IL creates spaces and objects for future culture.

Our team of collaborators speaks over a dozen languages and is informed by global narratives and perspectives. We are both locally rooted and nationless.

We design with time in mind. Whether working with existing structures or building from the ground, we carefully investigate physical properties and history. Our interventions are both respectful of their pasts and adaptable to a dynamic future. Our practice is animated by a belief in architecture as a medium capable of addressing the social challenges of our time.

SO – IL has been shortlisted in the [architecture studio of the year](#) of Dezeen Awards 2021.
